

PowerPoint Visual Support for NFA Classes

Attention all National Fire Academy Instructors! It is no longer necessary to use slides for most of the National Fire Academy classes. NFA has made PowerPoint presentations available to support nearly all current NFA classes. These presentations come packaged on a CD ROM and most also include an electronic copy of the Student Manual and the Instructor Guide. Please contact EST if you wish to obtain PowerPoint visuals for any NFA class you instruct. 208-334-3216 or toll-free 1-888-242-0210.
